

sears Microwave - Built In, Over Range: Measurement Cheat Sheet

Use this as a guide to make sure the appliance you want fits in the space you have available.

1 Measure the opening where the appliance will go.

Enter space measurements

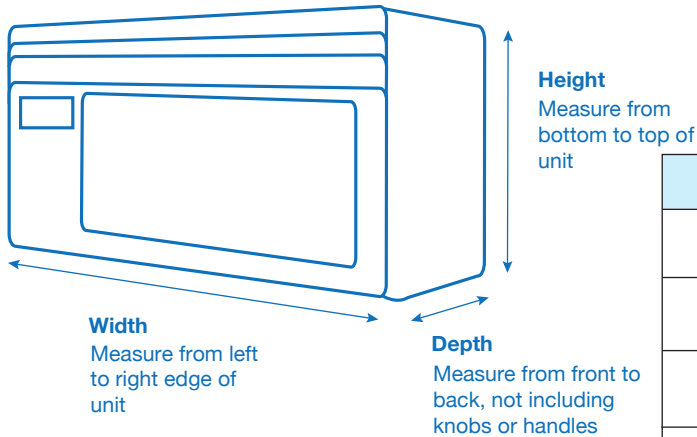

width inches

depth inches

height inches

Minimum height is 30".
Microwave hoods require 30" from the cabinet bottom.

2 Verify the appliances you're considering to fit within the measurements you took in step 2.
