

# Kids' Shoe Fit Guide

U.S. sizes. Print on 8.5" x 11" paper, at 100% size, no scaling.

## How to measure your child's shoe size

1. Wearing socks, ask your child to stand and line their right heel up with the "Place Heel Here" marker.
2. With a pen or pencil, mark a line at the end of your child's longest toe. If it falls between sizes, just round up to the next half or full size.
3. Next, measure the same way with left heel at the "Place Heel Here" marker. If one foot is longer than the other, choose the size that is larger.

## How to measure your child's shoe width

Line up your child's right foot instep on the "Right instep here" line. Mark a line where your child's foot ends. If the line falls outside of the dotted line, you may need a wide (W) shoe size.

**Note:** Actual shoe sizes may vary by brand.

## Shoe size guide template

Place a credit card or a quarter on top of the guides below to confirm print out is true to size.

If your child's foot is wider than this line, consider a wide width shoe

Big Kid

Little Kid

Toddler
