

sears Dishwasher: Measurement Cheat Sheet

Use this as a guide to make sure the appliance you want fits in the space you have available.

1 Measure the narrowest doorway or hallway from outside the home to the location where the appliance will be installed.

Width of narrowest doorway in inches: inches

- Appliance depth OR width must be smaller than the width above.
- Most home doors can be removed if necessary.

2 Measure the opening where the appliance will go.

Enter space measurements

width inches

depth inches

height inches

clearance inches

Minimum 24" depth and minimum 34" height required

3 Verify the appliances you're considering to fit within the measurements you took in step 2.

sears.com has the measurements you need for new products

brand	model	width	depth	height

Additional spacing of 1/2" on all sides of the dishwasher is recommended to reduce noise
